KING COUNTY ZONE 3 FIRE WATCH LOG

INCIDENT CASE# _____ INCIDENT DATE: _____

Fire protection system maintenance and operation is the responsibility of the property owner or manager. Implementation of the fire watch and system repairs is the responsibility of the owner.

King County

Due to the inoperative fire protection system(s) in your facility, you are required to provide a Fire Watch.

Email paperwork to verify the completion of repair work and/or the restoration of system monitoring. The Fire Watch shall be maintained until the system(s) are operational as determined by the Fire Prevention Bureau.

The Fire Watch is required 24 hours a day. Designated employees who are on location, may serve as the Fire Watch during business hours and while performing their regular job. Fire Watch personnel must be aware of, and accept, the duties of the Fire Watch.

After hours Fire Watch personnel must be on location and must patrol the building following the close of business.

Fire Watch personnel must record the results at the interval checked below:

- 30 minutes-OCCUPIED STRUCTURE
- Other _____
